Databases: MySQL, MongoDB
Tools: Docker, DDEV, Drush, Composer, Sourcetree & Git/Github
Cloud: Microsoft Azure

Selected Experience

InterVarsity Christian Fellowship/USA   Madison, WI
Junior Web Developer   2/2022 - Present
- Drupal site building, responsive theming and custom development
- Currently leading migration from Drupal 7 to Drupal 10
  - Sample work:
    - InterVarsity Annual Report - Solely responsible for developing the annual report of this $96 million national nonprofit from Figma design. Includes JavaScript parallax reverse scroll effect on images and Bootstrap Offcanvas to view additional videos. Went through multiple revisions with numerous stakeholders.
    - InterVarsity Logo Generator - The organization had this Vue.js app running on a separate site and used an iframe to show on home site, and had an AWS backend. However, the organization had transitioned from AWS to Azure, but still needed this moved, so I planned and executed this transition. (Moved Vue.js front-end to a custom Drupal module, and moved the backend from AWS to Drupal, utilizing Drupal's JSON API module to transmit the logo images that are generated by the app.)

Pro-Active Engineering   Madison, WI
Material Planner   8/2019 - 9/2021
Quoting Specialist   11/2017 - 8/2019
- Problem solving and balancing multiple stakeholders (customers, sales, engineering, suppliers) while quoting and buying for complex electronics projects with long-lead time parts.

Simplex Scientific   Madison, WI
Purchasing Manager/Customer Development Manager   10/2013 - 11/2017
Production Planner/Purchasing Assistant   03/2013 - 10/2013
- Learned purchasing and production planning while holding multiple roles at this small company.

Education
General Assembly, Remote   Certificate, Software Engineering Immersive
Univ. of Wisconsin - Madison   MBA, General Management
Univ. of Illinois - Urbana-Champaign   BA, Political Science
